MAI-LINH VAING

FINANCE LEADERSHIP · TRANSFORMATION

PROFILE

Finance leader in the financial market post-trade sector, trusted as a **deputy to the CFO** of a systemic central counterparty.

Leads the finance function, **modernising reporting processes and improving operational resilience**. Recognised for **building high-performing teams**, accelerating **finance transformation** and combining deep technical expertise with pragmatic transformation-focused mindset to simplify complexity through automation, AI and robust financial controls.

Responsible for the accounting and reporting of a clearing house carrying €632bn of total assets, delivering €85.3m of IFRS net profit, €487m of own funds, consistently delivering a clean, unqualified external audit opinions.

Selected five times for LSEG's talent pool across a 12-year career.

EXPERIENCE

Finance Operations & Reporting Senior Manager

2014 – Present

LSEG (London Stock Exchange Group) — LCH SA · Paris

- Promoted through four successive roles within Finance — from Finance Data & Systems Senior Analyst to Senior Manager.
- Led the finance function supporting LCH SA, a systemic European CCP, reporting to and deputising for the CFO and providing leadership across financial control, statutory and regulatory reporting, governance and financial operations.
- Built and directed a high-performing multidisciplinary team of 10 finance professionals through organizational growth and capability development.
- Act as a strategic Finance partner to Treasury, Business, Middle Office, Risk and Technology, aligning finance and business priorities across the organization.
- Drove external statutory and IFRS audits to a clean, unqualified opinion; presented operational-resilience (DORA) sign-offs at Risk Committees and represented the CFO across multiple governance bodies.
- Championed major finance transformation programmes including ERP migration, e-invoicing and strategic business initiatives, owning Finance impact assessment, UAT and readiness.
- Designed and delivered multiple automation initiatives using Power Platform and AI, including balance sheet substantiation, RUBA and Protide regulatory reporting, AI-assisted Accounts Payable invoice monitoring and AI-enabled bank reconciliations, significantly improving control, efficiency and reporting quality.
- Oversaw financial instrument valuation, clearing business activities and treasury cash positions in a highly-regulated market infrastructure.

Legal Entity Controller

2011 – 2013

Credit Suisse · Paris

- Oversaw statutory and regulatory reporting and the month-end close for the legal entity.
- Business partnering across the entity — budget, forecast, and analytical review.
